

Assembly instructions for the Ashton Trolley

- A: Right hand leg with towel rail
- B: Left hand leg
- C: Worktop
- D: Upper shelf
- E: Bottom shelf
- F: Back panel
- G: Front cross-piece
- H: Drawer back x 2
- I: Drawer side (right) x 2
- J: Drawer side (left) x 2
- K: Drawer front x 2
- L: Drawer base x 2

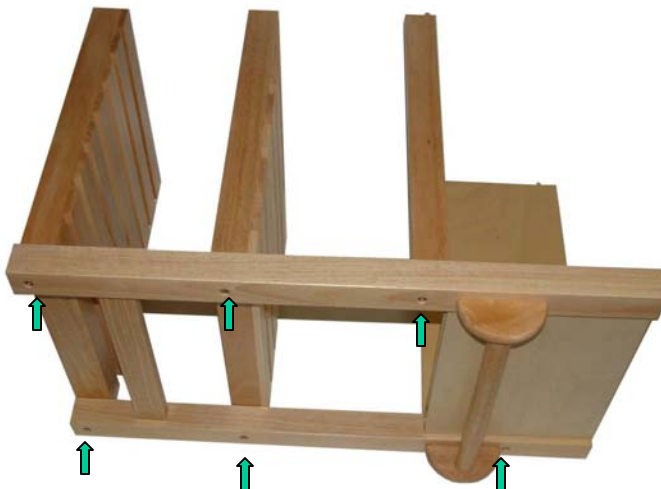

Step 1

Push 6 Wooden dowels (O) into holes in Back panel (F) and Front cross-piece (G)

Step 2

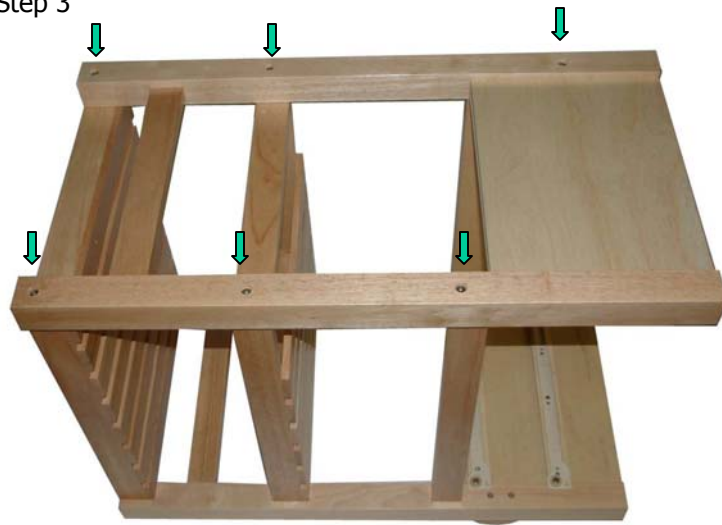

With right hand leg (A) on it's side, locate the back panel (F) and front cross-piece (G), and secure with 2 Allen key screws (P).

Locate upper shelf (D) and secure with 2 Allen key screws (P).

Locate bottom shelf (E) and secure with 2 Allen Key screws (P).

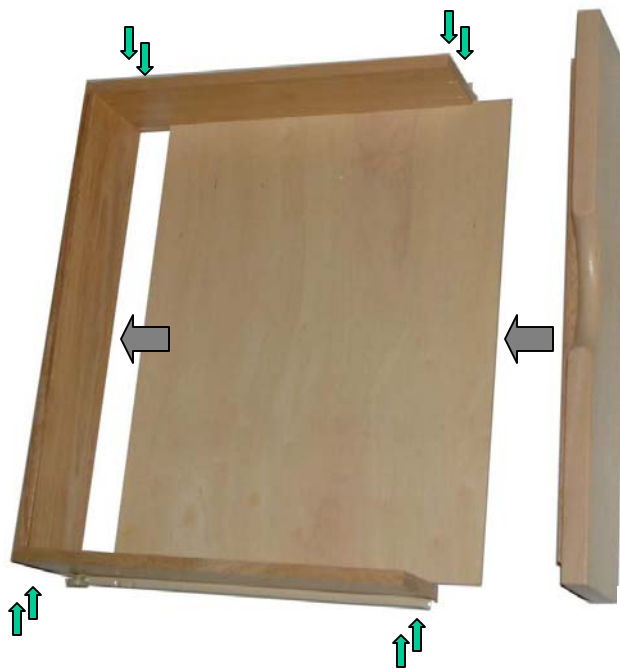

Step 3

Locate Left hand leg (B) onto dowels in back panel (F) and front cross piece (G) and onto shelves.

Secure with 6 Allen Key screws.

Step 4

Fix drawer sides (I,J) to drawer back (H) using 4 drawer screws (Q). Ensure the small wheel on each drawer runner is nearest to the drawer back. Slide the drawer base (L) into groove, then position drawer front (K) onto assembly and secure with 4 small screws (Q). Repeat for second drawer.

Step 5

Secure each castor to the base of each leg/ lower shelf using 4 castor screws (R). You will find pilot holes on the base to position the screws. The 2 locking castors should be on the front legs.

Slide each drawer onto the corresponding runners.

Finally lower the worktop (C) onto the top of the trolley.

The worktop is removable therefore take care when moving the trolley!!

Your Ashton trolley is now complete
